

WHY RENT FROM PETERSON IDEALEASE?

WE ARE LOCALLY OWNED AND OPERATED

Peterson has been in business since 1936. We understand all that comes with running a business in this region. From the constant rain to the hot sunny days, and the challenges that come with operating on the West Coast; the Air Resources Board and the BIT Program.

We understand your needs and will work quickly to get you the right equipment for your application. We offer comprehensive rental options – Daily, Weekly and Monthly rentals.

SAFETY & COMPLIANCE

Peterson has their own training facility where we offer on-going training on CARB compliance, changes in the rules and regulations surrounding the BIT program, how to survive a BIT inspection, etc. We also provide technical training, if you have your own technicians, as well as “Train the Trainer” sessions.

WE HAVE THE NEWEST RENTAL FLEET

We have over 290 rental units and over 80% of the vehicles are 2022-2024 model years. We have everything from 19,500 GVW to 80,000 GVW. All of our 26,000 GVW trucks come with an automatic transmission. We also carry class B trucks 33k GVW. Our customers are all commercial accounts, so our equipment is built for commercial use. Our fleet includes: Class 8 Tractors, Bobtails, Reefers, etc.

MOBILE SERVICE

All maintenance is included. We have shops located throughout Northern California and Oregon. We also have multiple “mobile” shops. These trucks are set up to do almost everything that we do in our shops, including welding and some fabrication. Our technicians are fully trained and highly skilled. They are not merely preventive maintenance providers, they are truly problem-solvers. Remember, there is no need to be located close to us – we will come to you!

24-HOUR ROADSIDE ASSISTANCE

We have a 1-800 number that is accessible 24 hours a day, from anywhere in North America. Our associates are multi-lingual and can assist in getting your drivers back on the road as soon as possible.
